## FOREWORD

**Military Manpower Statistics (MMS)** is a quarterly publication generated from an integrated data base containing manpower information. The MMS report consists of 28 statistical tables providing a variety of information on various aspects of Department of Defense (DoD) military manpower. In addition to summary data, detailed data are provided by Military Department or Defense Component, type of personnel (officer, enlisted), grade, and location. Selected tables also provide data on women in the military.

### GENERAL NOTES:

Excluded from all total DoD strength figures for fiscal year 1995 are approximately 65,000 full-time military personnel who are paid from other than active duty military personnel appropriations. This group is funded from appropriations for reserve components.

Selected Reserve strengths ordered to active duty by the President under Title 10, United States Code 673(b), are also excluded, except where noted, from total DoD strength figures for fiscal year 1995.

### NOTE ON UNITED STATES NAVY (USN) DATA:

For the months of January, February, and March 1995, total USN strength figures for the categories of officer, enlisted, and midshipmen are accurate as reported by the Navy. Due to reporting problems, tables containing strength data in more detail, such as rank/grade, contain estimated data, but do agree with the accurate total strength figure for each reportable category. Tables specifically affected are: 7B (reimbursables), 9/9A/9B (rank/grade), and 10 (female rank/grade).
